

MT4005 LFC 5000 m3

[MT 4005](#) [Live Fish Carrier](#)

MARIN TEKNIKK

MT4005 LFC 5000 WA

Flexible & efficient design platform

- Fastest treatment/load/unload time in the industry
- Low suction height, approx. 3 meter. Minimal underpressure for fish in wells
- Low unloading height. The delousing system is lowered to ensure the lowest possible pressure height.
- TGP – High Focus and several solutions to lower TGP
- Energy Efficiency – High focus on hull lines, circulation system & heat recovery
- Tank capacity: 2x 2500 m3
- Draft: 7.25 on Well Deck
- Rule length: 80m
- RO/Fresh water production: 9-12000 m3 /24H /under deck
- Biomass tanks

Design	MT 4005
Type	Live Fish Carrier
Length o.a.	87.1
Length p.p.	82
Width mld.	20.5
Depth main deck	8.55
Accommodations	12
